

Meritor Parts

Meritor Part - Meritor is a premier international supplier that is proudly built on a one hundred year tradition of service and quality. They concentrate on different modules, integrated systems and components to original machinery makers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage within the global operations. The company values all of their customers and would like to guarantee their success while anticipating their different requirements. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor encourages collaboration and innovation amongst a team of experienced professionals.

Meritor strongly believes in only hiring future focused individuals. These top-caliber individuals can quickly adapt to changing environments and freely demonstrate the level of performance and commitment necessary to be able to get results for the competitive market environment. The company empowers their teams to make sound business decisions so as to enhance the overall success of the business. In return, Meritor offers all their employees different possibilities for professional and personal development.

The Advanced Engineering team is on the forefront of systems engineering and components. This comprises axles, drivelines, suspension and braking systems for medium and heavy duty trucks, buses, military vehicles, trailers and off-highway vehicles. The Meritor Advanced Engineering team is growing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of all their worldwide engineering employees.

The Quality team at Meritor is a dynamic and customer-focused group who is dedicated to ensuring optimum development at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 countries.

The supplier development network is specially situated to be able to support new business development. Regional teams are supported by worldwide initiatives, quality systems and centralized specialties in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within every part of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also included transactional Green Belts who apply Six Sigma tools to business processes and apply lean techniques.
