

Forklift Electrical Parts

Forklift Electrical Parts - Forklifts can be purposely labeled for use in unsafe places. A labeled forklift indicates the design has met the lowest standards of ANSI/UL 558 utilized for engine powered trucks or ANSI/UL 583 for electric trucks for the type of label attached.

Applications for marked forklifts may be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Ask your local insurance provider and Fire Marshall for further info regarding the permitted uses of industrial powered forklifts in your application.

If the lift truck has been found to satisfy the outlined standards, the following labels can be attached. A marked truck will have the model designation placed on the forklift nameplate and would have one of the following labels placed.
